ACCOMMODATION

Our accommodation consists of single, twin and triple occupancy rooms. Single rooms are offered on the basis of clinical and infection control requirements and as such do not become available very often.

All rooms are equipped with a nurse call bell, television, free Wi-Fi and most rooms have direct access onto a courtyard.

DEMENTIA CARE

Anna Gaynor House is not a dementia specific centre, we are however dementia focused and strive to provide the highest level of care for people with dementia. As we are not a dementia specific service there are occasions where we are unable to meet the needs of some prospective residents. All clients are assessed on an individual basis for suitability and AGH being an open unit can be an influencing factor in the decision.
